

July 12, 2024

To: Our Valued Stockholders:

I am pleased to present you with an overview of PCT and 21st Century Energy Solutions strategic direction for the remainder of 2024 and beyond.

I apologize for my delayed podcast, but the news I was going to announce didn't come as I had expected. However, my plan is to do a podcast the first week in August, with concrete news of signed Agreements, Contracts and more.

Both PCT and 21st Century Energy Solutions are currently addressing many opportunities and challenges.

PCT

Several opportunities are currently being addressed and negotiated by PCT, through existing and proposed new Distributors. They are:

- Educational Services
 - School Systems
 - Equipment Sales/Leased plus Fluid royalties
- Cleaning Services
 - National commercial and Federal government accounts
 - Fluid Sales
- Healthcare
 - Sale of fluids to hospitals and other healthcare providers
- Agriculture
 - Equipment Sales/Leased plus Fluid royalties
- Hospitality
 - Direct Fluid Sales to Restaurants, Resorts, Hotels, Recreation facilities and more
- International (South America)
 - Equipment Sales plus Fluid royalties
- Retail and Commercial Sales through PCT's shop.com website
 - Aggressively pursuing businesses and consumers through on-line sales

21st Century Energy Solutions

21st Century Energy Solutions recently completed its largest oil well fluid treatment job to date. Almost 20,000 gallons of both anolyte and super catholyte fluids were used to treat the well. Treatment history results indicate that a 3-5 times increase in the number of barrels of oil per day results are to be expected soon, at which time, we're told by the same oil company (and others), that we'll have more opportunities to treat more of their wells.

The almost 20,000 gallons of fluid were produced from the Holdenville, OK facility and delivered to the wellsite. As more opportunities arise, both the Midland, TX and Holdenville, OK facilities remain ready to produce upwards of 15,000 gallons of anolyte and/or super catholyte fluid per day.

We extend our sincere gratitude to you for your unwavering support and confidence.

I assure you that each day we strive to achieve success, with steadfast determination to continue to seek opportunities, close deals and to maximize both top and bottom-line goals.

Best Regards,

A handwritten signature in black ink, appearing to read "Arthur E. Abaham", with a long horizontal flourish extending to the right.

Arthur E. Abaham
President and Chief Financial Officer
